FOOD MAKERS BAKERY EQUIPMENT
844-207-1114 | www.FMBE.com
We believe in building a quality product that will outlast and outperform any other rolling stock on the market.

Our expertise in all aspects of the baking industry gives us special insight into your needs.

It’s the high standard and work ethic of our team members that have made our company an industry leader for over 30 years.

Located in the city of Irwindale in Los Angeles. Our 60,000 square foot plant offers a full range of services to meet the needs of today’s baker.

Make a smart investment in the company that knows this industry from the inside out.
Order our optional double welds on all slides for superior strength and we will guarantee these welds for life. Imagine…a rack with no broken welds…ever!

The second installment in our HEAVY DUTY LINE OF RACKS is our industrial, oversized red casters. Our 5"x 2" can support 750 lbs. per Caster. It is this strength that keeps our rack rolling.

WELDS NEVER BREAK

Lastly our heavy duty base plate design takes all the weight off the welds, making this a LIFETIME rack frame…no broken welds ever…nothing else compares.

WE DON’T DO LOW QUALITY RACKS

JUST SAY NO to cheap racks
Stainless or Aluminum Pan Rack

All Standard Racks Include These Exceptional Features:

- Standard 16-Gauge Slides
- Red, 5" x 2" Industrial Casters
- Choose All Stainless Steel Or Aluminum Construction

Upgrade Options:
